NOTICE REGARDING WELLNESS PROGRAM**

The City of Cincinnati Healthy Lifestyles Program is a voluntary wellness program available to all full time employees who are either enrolled in a City medical plan with Anthem or in the City's integrated HRA plan with Catilize Health. The program is administered according to federal rules permitting employer-sponsored wellness programs that seek to improve employee health or prevent disease, including the Americans with Disabilities Act of 1990, the Genetic Information Nondiscrimination Act of 2008, and the Health Insurance Portability and Accountability Act, as applicable, among others. If you choose to participate in the wellness program you will be asked to complete a voluntary personal health assessment or "PHA" that asks a series of questions about your health-related activities and behaviors and whether you have or had certain medical conditions (e.g., cancer, diabetes, or heart disease). You will also be asked to complete a biometric screening, which will include a blood test for Total Cholesterol, HDL, LDL, Triglycerides and Glucose. You are not required to complete the PHA or to participate in the blood test or other medical examinations.

However, employees who choose to participate in the wellness program will receive an incentive of up to \$300 for completing available incentives. Although you are not required to complete the PHA or participate in the biometric screening, only employees who do so will receive the PHA and biometric incentives (up to \$130).

Incentives may be available for employees who participate in certain health-related activities such as preventive screenings, physical activity, etc. or achieve certain health outcomes. If you are unable to participate in any of the health-related activities or achieve any of the health outcomes required to earn an incentive, you may be entitled to a reasonable accommodation or an alternative standard. You may request a reasonable accommodation or an alternative standard by contacting Amy Driscoll at (513)977-0018.

The information from your PHA and the results from your biometric screening will be used to provide you with information to help you understand your current health and potential risks, and may also be used to offer you services through the wellness program, such as wellness workshops and coaching. You also are encouraged to share your results or concerns with your own doctor.
